REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Nottingham:

"The school is the foundation of the nation. If the American school fails, America will fail. Education is the mother of civilization. Where there has been no education there has been no civilization."

It is recognized today that the acquisition of knowledge is not the chief aim of the educative process, but instruction is for the benefit of the physical, moral and mental development of the child. Physical fitness is the foundation of good citizenship, so provision for physical education and welfare has found its way into our schools. The most important element of success in community life is team work with a common purpose. Much is being done in our schools, in training the children to work together in plays, games, and other activities. To recognize the rights of others, and to realize that freedom and liberty for the whole group, depends upon the willingness of the individual to conform to rules and laws established for the good of all.

Much research work has been done in recent years, establishing the methods that are most effective in class room instruction, and culling out the things that have little or no educational value. We are trying to profit by the findings of this research work and to incorporate into the schools of Nottingham those things which make for efficiency and to eliminate things which have no value.

The use of the standard tests this year enables us to find the strong and the weak points in our schools with accuracy, and to compare the school work of Nottingham with that of hundreds of other schools throughout the country who use the same tests. This helps us to carry the classification of pupils into grades with a greater degree of exactness.

It also shows the weakness in any particular subject of study, so we know where more stress should be placed to bring the work up to normal.

Both pupils and teachers appreciate the improvements in the remodeled school buildings, and look forward to the time when the interior decorations shall be completed.

The fine spirit of loyalty and enthusiasm manifested by the teachers is worthy of mention, as it means much in the effectiveness of the school work in Nottingham.

In conclusion, I wish to express to the members of the School Board and to the teachers my appreciation of their coöperation in all school activities.

Respectfully submitted,

CLARENCE C. SANBORN,
Superintendent of Schools.
